

Rising Waters: A Machine Learning Approach to Flood Prediction

Demonstration of Proposed Features

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	Data Analysis	Dataset visualization and statistics	Implemented	yes	Successfully demonstrated
2	Data Preprocessing	Data cleaning and scaling	Implemented	Yes	Working correctly
3	Model Training	Multiple ML algorithms	Implemented	Yes	All models trained
4	Flood Prediction	Real-time prediction	Implemented	Yes	Accurate results generated
5	Flask Web Interface	User-friendly prediction portal	Implemented	Yes	Successfully demonstrated
6	Model Evaluation	Accuracy and confusion matrix	Implemented	yes	Performance metrics displayed

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
